January 4, 2005

Dear IDC Candidate,

We at Scuba Center know that you want the best IDC around. That is why we believe that you need to come to Tyler, Texas and take your PADI IDC with Scuba Center!

Since 1984, Scuba Center in Tyler, Texas has trained thousands of people in the East Texas area to safely explore the underwater realm. As a result, our instructional staff has gained a multitude of experience, and as a PADI Five Star Instructor Development Center, Scuba Center remains the premier instructor training facility in the East Texas region.

We are certain that in your search for a store to take an IDC with, you've looked for education experience and excellence. We've got both. Our PADI IDC's are conducted by PADI Course Director John Michael Slicker, CD-60379, and we are proud to say that our candidates have a 100 % passage rate on the IE.

At our facility, we boast an indoor, heated pool where candidates will practice their skills before they head out to open water, and we have a classroom dedicated to the IDC. There are several hotels nearby and Tyler Pounds Field is serviceable by Continental and American Airlines.

Included in this packet are several informational brochures regarding dates for our upcoming IDC's, course fees, lodging information, and more.

We hope that when you decide where to take your IDC, it is Scuba Center. Please feel free to contact us if you would like to register for a class or if you have any questions.

Sincerely,

John J. Bailey

Why should I take my IDC with Scuba Center?

Scuba Center offers the most experienced instructional staff and the best facilities in the area. After being in business for over 20 years, the staff at Scuba Center knows the ins and outs of diver training, and because we have an indoor, heated pool, we can conduct training year-round.

Of course, the most important reason why you should take your IDC with Scuba Center is... you. We value all of our students, and we are dedicated to making sure that when you do take your IE, you are prepared.

Why should I come to Tyler, TX?

Believe it or not, Tyler is one of the most advantageous destinations to choose for your IDC. The city of Tyler boasts a regional airport that is serviceable by daily flights from Dallas and Houston. If you prefer to drive, then Tyler is only 2 hours east of Dallas, or 2 hours west of Shreveport, LA.

Accommodations?

If you will need accommodations for during your IDC, Scuba Center has arranged special rates with local hotels. Current rates can be found on attached sheets.

Food?

There are several eateries close-by to Scuba Center which are easy to find and inexpensive.

What about the class format?

Our IDC's consist of the standard 7 day format that you will find used around the world. The first three days consist of the Assistant Instructor program, where you will learn the basics of the PADI system of learning, and how to effectively teach in a classroom setting. Upon completion of the third day of training, you will be a PADI Assistant Instructor.

The remaining four days are the Open Water Scuba Instructor portion of the IDC. In these last days your classroom and in-water teaching skills will be tested and refined in preparation for the IE.

In addition to the IDC, on the weekend before the IDC starts, Scuba Center offers PSI Inspector classes. This is a great opportunity for you to get yet another credential to add to your resume'.

Have any more questions?

If so, call us at (903) 595-2703, or send us an email at ScubaCenter@tyler.net !

SCUBA CENTER
